Welcome to Jayhawk Area Council Camps
Falley Scout Reservation,
Home of Camp Jayhawk & Camp Delaware

Health and Safety Measures
Your safety and the safety of all our members, volunteers, and employees is the Jayhawk Area Council’s top priority. We are taking these additional precautions during your stay at Falley Scout Reservation.

1.) Screening: Although screening plays a valuable role in knowing who is sick from COVID-19, many patients infected with COVID-19 will be asymptomatic but can spread the virus to others. Even with stringent screening measures, there is still a risk of becoming exposed to COVID-19 during activities with social interaction. Screening will occur in 3 phases:
   A. Prior to Camp: Pre-Screening will be the responsibility of the Unit Leaders for each Troop or Cub Scout Pack and should be done before departure for Falley Scout Reservation.
   B. At Falley Scout Reservation: Campmaster or Ranger will check you in and temp each attendee.
   C. Checkout: Campmaster or Ranger will temp check you at checkout. Unit Leaders will be responsible for monitoring participants if symptoms occur. It is also the responsibility of the Unit Leaders to report back to Jayhawk Area Council if this happens.

Screening will include:
   1. Temperature check
   2. Exposure questions as to whether individual (or close household contacts of individuals) has been exposed to anyone with confirmed or suspected COVID-19 in the last 14 days prior.
   3. The current list of the most common COVID-19 symptoms (per www.coronavirus.kdheks.gov)

A. Tents: Tent should have adequate spacing from each other. Troops: Each person is to have their own tent unless you are living in the same house then no more than 2 per tent. Cub Scouts: Families can share a tent.
B. Showers: Each campsite will be assigned a shower location. The showers will need to be cleaned between uses per ACA and CDC guidelines. Cleaning material will be given to you by the Camp Ranger or Campmaster.
C. **Campsite Cleaning**: Regular cleaning and disinfecting of all surfaces including tables, sinks, latrines will be the responsibility of each Unit and should be done according to ACA and CDC guidelines. Each campsite will be equipped with the appropriate cleaning supplies. If you need supplies, report to the Camp Ranger or Campmaster. Please use them respectfully. If you have questions on items you think might need to be sanitized with the cleaning supplies provided, please contact the Camp Ranger or Campmaster.

2.) **Additional Precautions & Masks**: Sneezing and coughs should be covered in the crook of the arm. Tissues should be disposed of appropriately. Masks, either cloth or surgical, have been recommended by the CDC guidelines. Falley Scout Reservation will not be providing face mask. We ask that you wear them when social distancing is not available. Please don’t wear a mask if you are participating in an activity were you are overexerting yourself. If hiking, you can have your mask off as long as you are allowing 6 ft distance from the person in front of you and behind you.

3.) **Vulnerable Individuals**: This includes older adults, particular those 65 years of age or older as well as person with chronic disease conditions which includes but not limited to: Asthma, COPD, other chronic lung disease, high blood pressure, obesity, diabetes, cardiac disease, cancer (especially if recent chemotherapy), autoimmune disease, chronic kidney disease (especially if dialysis) and chronic liver disease. Smoking cigarettes, vaping and e-cigarette use also increases risk of serious illness infected with COVID-19. Vulnerable individuals should strongly consider the risks if they chose to attend. BSA requires Part A, B, & C for all attending camps longer than 72 hours.

4.) **Mitigation**: All the recommendations in this document serve to alleviate the spread of COVID-19 during your stay at Falley Scout Reservation. There is no guarantee or assumption that it will be COVID-19 free. Jayhawk Area Council is doing their part to decrease the risks by all individuals who attend Falley Scout Reservation.

These recommendations were a collaborative agreement from Jefferson County Health Department and the Jayhawk Area Council. All recommendation here are subject to change based on new knowledge, recommendation, orders, and guidance as they become available. Please reach out if you have any questions or concerns.

Thank you,
Britta McKee
